*Subject index**

A

ABO incompatible erythrocytes in human neonates, immunologic tolerance of (Cooper and Lusher), 831

Absorption, fat, which employs iodinated triglyceride, new test for (Neerhout et al), 701

Abstracts—Midwest Society for Pediatric Research, Chicago, Ill., Nov. 2 and 3, 1963, 102

Acetylcysteine (N) in treatment of cystic fibrosis (Reas), 542

Acid (s), amino, excretion, pattern of mental retardates as screening technique for inborn errors of metabolism, evaluation of (Stambaugh and Davidson) (BCLO), 301
- and protein-bound carbohydrates in tuberous sclerosis, survey of (Carpenter et al.) (BCLO), 124
- folic, deficiency and hemolytic anemia in children (Shojania and Gross), 114 (Abst.)
- nucleic, studies for rubella virus using 5 iodo 2′-deoxyuridine (Cusumano et al.) (BCLO), 138
- oxalic, following deoxypyridoxine and tryptophan administration in mongoloid and nonmongoloid subjects, excretion of (McCoy, Anast, and Naylor), 208
- in mongol and nonmongol following deoxypyridoxine and tryptophan, excretion of (McCoy and Anast), 105 (Abst.)
- periodic-Schiff reaction, histochemical studies with, in childhood malignancies (Sinks and Newton), 116 (Abst.)

Acid-base balance in newborn infants, effect of hypoxia and status of ductus arteriosus on (Moss et al.), 819

Acidosis, idiopathic lactic, in infancy (Howarth and Israels), 103 (Abst.)

Adenoma, pituitary, hyperthyroidism in patients with (Nyhan and Green), 583

Adrenal hyperplasia, congenital (CAH) in siblings, virilizing and hypospadic salt losing forms of (Kenny, Klein, and Richards), 110 (Abst.)

African, South, Bantu infants, glucose-6-phosphate dehydrogenase deficiency and neonatal jaundice in (Levin, Charlton, and Freiman), 757
- Uganda, causes of perinatal death in (Dodge and McKinney) (Trop. ped.), 267

Agranulocytic infection, massive disseminated (Staphylococcus albus) (CPC), 141

Alcoholism and malnutrition in child, pancreatic lithiasis due to (Schmidt et al.) (BCLO), 613

Alkali and glucose infusion on permanent brain damage in rhesus monkeys asphyxiated at birth, effect of (Dawes, Hibbard, and Windle), 801

Alkalosis, metabolic, with diarrhea and chloride-free urine (Owen), 849

Allergic child, the (Speer, editor), 316 (B. rev.)

Alymphocytosis, thymic (CPC), 141

American Negro, phenylketonuria in (Katz and Menkes), 71

Amniocentesis—crossing the chorion (Editorial), 642

Amniotic fluid, fetal lamb, relationship of lipid composition to surface tension (Fujiwara, Adams, and Scudder), 824

Amino acid excretion pattern of mental retardates as screening technique for inborn errors of metabolism, evaluation of (Stambaugh and Davidson) (BCLO), 301
- and protein-bound carbohydrates in tuberous sclerosis, survey of (Carpenter et al.) (BCLO), 124

Analgesia, obstetrical, neonatal bilirubin levels after use of phenothiazine derivatives for (deLamerens, Tuttle, and Aballi) (BCLO), 925

Andersen, Dorothy Hansine, (Damrosch), 477

Anemia, congenital nonspherocytic hemolytic (Zipursky, Rowland, and Israels), 104 (Abst.)
- hemolytic, and folic acid deficiency in children (Shojania and Gross), 114 (Abst.)
- pernicious, with neurologic involvement in childhood (Pearson, Vinson, and Smith), 334

Aneuploidy, double: trisomy 21 and XO/XX sex chromosome mosaicism (Root et al.) (BCLO), 937

Angiocardiographic feature of total anomalous venous return into coronary sinus simulating tricuspid atresia or stenosis (Mehrizi, Dekker, and Ottesen), 615

Angiokeratosis, diffuse (Fabry's disease) in children (Stiles and Opitz), 103 (Abst.)

Angioneurotic edema (familial periodic edema) (CPC), 625

Anomalies (*See also* Malformations)
- congenital, associated with idiopathic mental retardation (Smith and Bostian), 189

Antibodies against enteroviruses in human milk (Michaels), 117 (Abst.)
- neutralizing, significance and distribution of, to R. S. virus (Beem), 108 (Abst.)
- ultrastructural study of platelet-fibrin, interaction utilizing ferritin-labeled antihuman fibrinogen (White, Krivit, and Vernier), 107 (Abst.)

*July, pp. 1-164; August, pp. 165-326; September, pp. 327-474; October, pp. 475-644; November, pp. 645-800; December, part 1, pp. 801-982.

Antifouling paint, marine, acute mercury poisoning in child following contact with (Schrager) (BCLO), 780
Aortic stenosis, supravalvar (Petry et al.), 120 (Abst.)
Aplasia of bone marrow, with stem cells (CPC), 141
Arterial pressure, pulmonary, changes in human newborn infants from birth to 3 days of age (Emmanouilides et al.), 327
Artery, main pulmonary, stenosis, in dog, course of artificially produced (Tsifutis et al.), 118 (Abst.)
and vein, fetal cord, plasma insulin-like activity in (Klink et al.), 112 (Abst.)
Artificially produced main pulmonary artery stenosis in dog, course of (Tsifutis et al.), 118 (Abst.)
Asphyxia at birth, effect of alkali and glucose infusion on permanent brain damage in rhesus monkeys with (Dawes, Hibbard, and Windle), 801
resuscitation by positive pressure ventilation and Tris-hydroxymethylaminomethane in rhesus monkeys with (Adamsons et al.), 807
Assay for heparin-like activity in blood of patients undergoing open heart surgery (Reiner), 121 (Abst.)
Asthma in children, treatment of mediastinal and subcutaneous emphysema complicating (Thaler et al.), 75
Ataxia telangiectasia, host factors in (Blattner) (Comments), 786
Atresia, familial extrahepatic biliary (Krauss) (BCLO), 933
tricuspid, or stenosis, angiocardiographic feature of total anomalous venous return into coronary sinus stimulation (Mehrizi, Dekker, and Ottesen) (BCLO), 615

B

Bacterial meningitis and gingivostomatitis, isolation of Herpesvirus hominum from cerebrospinal fluid of child with (Brunell and Dodd), 53
Bacteriophage ϕX 174 from circulation of premature infants and older children, clearance of (Taylor and Uhr), 117 (Abst.)
Bacteriuria and pyuria, asymptomatic, in infancy (Randolph and Greenfield), 57
Bantu infants, glucose-6-phosphate dehydrogenase deficiency and neonatal jaundice in South African (Levin, Charlton, and Freiman) (Trop. ped.), 757
BCG infection, generalized (Blattner) (Comments), 311
Behavior, determinants of infant (Foss, editor), 634 (B. rev.)
Behavioral illness in boys 9 to 14 years of age, practical, quantitative method for recognizing (Kearsley, Snider, and Eaton), 256
Beta hemolytic streptococcal pharyngitis (history) (CPC), 625
Biliary atresia, familial extrahepatic (Krauss) (BCLO), 933
Bilirubin equilibration during exchange transfusion in hemolytic disease of newborn (Sproul and Smith), 12
levels, neonatal, after use of phenothiazine derivative for obstetrical analgesia (deLamerens, Tuttle, and Aballi), 923
in newborn infant, enterohepatic shunting of (Ulstrom and Eisenklam), 27
serum, concentrations in normal human newborns, possible role of enterohepatic shunt as determinant of (Ulstrom and Eisenklam), 115 (Abst.)
Biochemical and immunologic comparison of urinary glycoproteins in patients with cystic fibrosis of pancreas and normal controls (Talamo et al.), 480
studies of tuberous sclerosis (Carpenter et al.) (BCLO), 124
(Carpenter, Carter, and Colombini) (BCLO), 778
Biopsy, needle, of liver in infants and children (Porter, Riley, and Graham), 176
Birth, effect of alkali and glucose infusion on permanent brain damage in rhesus monkeys asphyxiated at (Dawes, Hibbard, and Windle), 801
resuscitation by positive pressure ventilation and Tris-hydroxymethylaminomethane of rhesus monkeys asphyxiated at (Adamsons et al.), 807
to 16 weeks of age, infant sleep patterns (Parmelee, Wenner, and Schulz), 576
to 3 days of age, pulmonary arterial pressure changes in human newborn infants from (Emmanouilides et al.), 327
Biting, lip, in infancy (Kravitz) (BCLO), 136
Blood electrolytes and cerebrospinal fluid in 62 mentally defective infants and children (Schain), 422
patients undergoing open heart surgery, assay for heparin-like activity in (Reiner), 121 (Abst.)
Body composition, changing, and intake, response of neonatal renal function to (Oh, Baens, and Metcoff), 115 (Abst.)
Bone disease, chronic, atypical mycobacteria as probable cause of (Krieger, Hahne, and Whitten), 340
marrow, aplasia of, with stem cells (CPC), 141
dysfunction and syndrome of pancreatic insufficiency (Shwachman et al.), 645
lymphoid hyperplasia with lymphoid nodules in (CPC), 306
Books:
Received, 153, 315, 466, 634, 789, 952
Reviews, 316, 467, 634, 790, 952
Botryomycosis, complication in cystic fibrosis (Katznelsen et al.), 525
Brain damage in rhesus monkeys asphyxiated at birth, effect of alkali and glucose infusion on permanent (Dawes, Hibbard, and Windle), 801

Brain—Cont'd
and liver enzymes with plasma phenylalanine in rat phenylketonuria, correlates of (Waisman and Boggs), 105 (Abst.)
tumors in early infancy—probably congenital in origin (Raskind and Beigel), 727
Breathing, oxygen, nitrogen excretion by newborn infants during (Nelson, Prod'hom, and Cherry) (BCLO), 299
Buccal smears in newborn female (Frasier, Crudo, and Farrell), 222
Burns, nonfatal, of children in well-defined urban population (Waller and Manheimer), 361

C

CAH (congenital adrenal hyperplasia) in siblings, virilizing and hypospadic salt losing forms of (Kenny, Klein, and Richards), 110 (Abst.)
Caloric intake and growth, influence of tonsillectomy on (Roche), 360
Carbohydrates, protein-bound, and amino acids in tuberous sclerosis, survey of (Carpenter et al.) (BCLO), 124
Carcinoma, pancreatic, in childhood (Moynan, Neerhout, and Johnson), 711
Cerebrospinal fluid and blood electrolytes in 62 mentally defective infants and children (Schain), 422
of child with bacterial meningitis and gingivostomatitis, isolation of Herpesvirus hominum from (Brunell and Dodd), 53
glutamic oxalacetic transaminase and lactic dehydrogenase activities in children with neurologic disorder (Lending, Slobody, and Mestern), 415
palsy, easily made chair for child with (Jenkins) (BCLO), 776
etiologic and diagnostic study of (Malamud et al.), 270
sinus, organized thrombus of right lateral (CPC), 306
venous sinuses, probable source of massive pulmonary thromboembolism with acute infarction of right upper lobe of lung (CPC), 306
Charcoal, oral activated, to reduce normal serum bilirubin values in enterohepatic shunting in newborn infant (Ulstrom and Eisenklam), 27
Child development research, review of (Hoffman and Hoffman, editors), 790 (B. rev.)
psychiatrist views pediatric training (Editorial), 472
Childhood and infancy, tumors of (Michael), 790 (B. rev.)
neurometabolic disorders in (Holt and Milner, editors), 790 (B. rev.)
pancreatic carcinoma in (Moynan, Neerhout, and Johnson), 711
Chair, easily made, for child with cerebral palsy (Jenkins) (BCLO), 776
Chloride-free urine and diarrhea, metabolic alkalosis with (Owen), 849
Chlorprothixene by 3 year old, ingestion of toxic overdose of (Plumb and Joseph) (BCLO), 458
Chondroitin sulfate B excretion in relatives of patient with Morquio-Ullrich's disease (Holman and Lalli), 108 (Abst.)
Chorion crossing (amniocentesis) (Editorial), 642
Chromosome, XXYY sex, complex, Klinefelter's syndrome with (Robinson et al.), 226
XO/XX sex and trisomy 21 (Root et al.) (BCLO), 937
Circulation of premature infants and older children, clearance of bacteriophage ϕX 174 from (Taylor and Uhr), 117 (Abst.)
Clinical and cytogenetic features, mongolism (Down's syndrome) with atypical (Sergovich et al.), 197
evaluation of therapeutic program for patients with cystic fibrosis, 5 year (Doershuk et al.), 677
investigation in medicine: legal, ethical, and moral aspects (Ladimer and Newman, editors) 791 (B. rev.)
manifestations of tetanus in children (Athavale and Pai (Trop. ped.), 590
Closure, surgical, of ventricular septal defects in infants (Sigmann, Stern, and Sloan), 119 (Abst.)
College, small, place in educational system (Editorial), 470
Color vision, screening for, in pediatrician's office (Rosner) (BCLO), 454
Communications of doctor-mother, effectiveness of (Ambuel et al.), 113 (Abst.)
Congenital adrenal hyperplasia (CAH) in siblings, virilizing and hypospadic salt losing forms of (Kenny, Klein, and Richards), 110 (Abst.)
anomalies associated with idiopathic mental retardation (Smith and Bostian), 189
heart disease, genetic evaluation of (Nora et al.), 120 (Abst.)
in neonatal period (Mehrizi, Hirsch, and Taussig), 721
hypothyroidism, temperature effects of therapy in (Lipton et al.), 740
leukemia, acute, and trisomy-21, aerial cytogenetic and hematologic studies on mongol with (Honda et al.), 878
transient, in 7 infants with mongolism (Engel et al.) (BCLO), 303
malformations (International Medical Congress, Ltd., editors), 952 (B. rev.)
and perinatal death in Uganda Africans (Dodge and McKinney) (Trop. ped.), 267
nonspherocytic hemolytic anemia (Zipursky, Rowland, and Israels), 104 (Abst.)
probable, brain tumors in early infancy (Raskind and Beigel), 727
Connective tissue tumors, superficial, in early infancy (Goslee et al.), 377
Cord, fetal, artery and vein, plasma insulin-like activity in (Klink et al.), 112 (Abst.)

Coronary sinus simulating tricuspid atresia or stenosis, angiocardiographic feature of total anomalous venous return into (Mehrizi, Dekker, and Ottesen) (BCLO), 615
Cough, whooping, syndrome (Blattner) (Comments), 150
Critical or sensitive period, with special reference to certain feeding problems in infants and children (Illingworth and Lister), 839
Cystic fibrosis, botryomycosis, complication in (Katznelsen et al.), 525
dehydrogenases in patients with, and in control subjects, II (Gibbs and Reimer), 540
5 year clinical evaluation of therapeutic program for patients with (Doershuk et al.), 677
growth patterns in children with (Sproul and Huang), 664
of pancreas and normal controls, immunologic and biochemical comparisons of urinary glycoproteins in patients with (Talamo et al.), 480
pulmonary hypertension and cor pulmonale in (Goldring et al.), 501
specific isoantibodies in (Stein et al.), 495
submaxillary salivary enzymes as measure of glandular activity in (Chernick, Eichel, and Barbero), 694
therapeutic regimen for patients with (Matthews et al.), 558
use of N-acetylcysteine in treatment of (Reas), 542
Cytogenetic and clinical features, atypical mongolism (Down's syndrome) with (Sergovich et al.), 197
and hematologic studies, serial, on mongol with trisomy-21 and acute congenital leukemia (Honda et al.), 878
mosaicism, inherited, in man (Borges, Wald, and Hoffman), 103 (Abst.)

D

Damage, brain, in rhesus monkeys asphyxiated at birth, effect of alkali and glucose infusion on permanent (Dawes, Hibbard, and Windle), 801
Death during exchange transfusion (CPC), 940
perinatal, in Uganda Africans and congenital malformation (Dodge and McKinney) (Trop. ped.), 267
possible role of virus infection in sudden unexpected (Blattner) (Comments), 631
Defective, mentally, infants and children, cerebrospinal fluid and blood electrolytes in 62 (Schain), 422
Defects, ventricular septal, in infants, surgical closure of (Sigmann, Stern, and Sloan), 119 (Abst.)
Deficiency, diaphorase in Navajo Indians, hereditary methemoglobinemia due to (Balsamo, Hardy, and Scott) (BCLO), 928
Deficiency—Cont'd
disaccharidase, with steatorrhea (Lifschitz and Holman), 102 (Abst.)
folic acid, and hemolytic anemia in children (Shojania and Gross), 114 (Abst.)
glucose-6-phosphate dehydrogenase, and neonatal jaundice in South African Bantu infants (Levin, Charlton, and Freiman) (Trop. ped.), 757
Deformity, varus, of hand, absent radius, and rudimentary thumb, trisomy 18 syndrome with (Voorhess, Aspillaga, and Gardner) (BCLO), 130
Dehydrogenase, glucose-6-phosphate, deficiency and neonatal jaundice in South African Bantu infants (Levin, Charlton, and Freiman) (Trop. ped.), 757
lactic, and cerebrospinal fluid glutamic oxalacetic transaminase activities in children with neurologic disorders (Lending, Slobody, and Mestern), 415
in patients with cystic fibrosis and in control subjects, II (Gibbs and Reimer), 540
Dentinogenesis imperfecta, hereditary (Wallace) (BCLO), 128
Deoxypyridoxine and tryptophan, excretion of oxalic acid in mongol and nonmongol following (McCoy and Anast), 105 (Abst.)
administration in mongoloid and nonmongoloid subjects, excretion of oxalic acid following (McCoy, Anast, and Naylor), 208
Depo-Provera in 3 girls with idiopathic isosexual precocity, action of (Lemli, Aron, and Smith), 886
(Lemli, Aron, and Smith), 110 (Abst.)
Detubating infant with tracheostomy, problem of (Smythe) (Med. prog.), 446
Development, child, research, review of (Hoffman and Hoffman, editors), 790 (B. rev.)
Developmental lag in certain blind children, appraisal of (Elonen and Zwarensteyn) (Med. prog.), 599
Diabetes mellitus syndrome in newborn infant (Burland) (BCLO), 122
Diaphorase deficiency in Navajo Indians, hereditary methemoglobinemia due to (Balsamo, Hardy, and Scott) (BCLO), 928
Diarrhea and chloride-free urine, metabolic alkalosis with (Owen), 849
Diarrheal diseases, studies on (Guardiola-Rotger et al.) (Trop. ped.), 581
Disaccharidase deficiencies with steatorrhea (Lifshitz and Holman), 102 (Abst.)
Disease(s), congenital heart, genetic evaluation of (Nora et al.), 120 (Abst.)
chronic bone, atypical mycobacteria as probable cause of (Krieger, Hahne, and Whitten), 340
congenital heart, in neonatal period (Mehrizi, Hirsch, and Taussig), 721
diarrheal, studies on (Guardiola-Rotger et al.) (Trop. ped.), 81
Fabry's (diffuse angiokeratosis) in children (Stiles and Opitz), 103 (Abst.)

Disease(s)—Cont'd
glycogen storage of heart, in newborn infant (Rosenstein) (BCLO), 126
heart, in Laurence-Moon-Biedl-Bardet syndrome (McLoughlin, Krovetz, and Schiebler), 388
hemolytic, of newborn bilirubin equilibration during, exchange transfusion in (Sproul and Smith), 12
Leiner's, fluocinolone acetonide treatment of (Middelkamp and Lane) (BCLO), 784
Morquio-Ullrich (Holman and Lalli), 108 (Abst.)
Disorders of lung in newborn infant (Avery), 953 (B. rev.)
neurometabolic, in childhood (Holt and Milner, editors), 790 (B. rev.)
startle response and serum enzyme profile in early detection of Tay-Sachs' (Schneck, Maisel, and Volk), 749
Doctor-mother communications, effectiveness of (Ambuel et al.), 113 (Abst.)
Down's syndrome (mongolism) with atypical clinical and cytogenetic features (Sergovich et al.), 197
Ductus arteriosus and hypoxia on acid-base balance in newborn infants, effect of (Moss et al.), 819
Dysautonomia, familial, familial pheochromocytoma presenting as (Smith and Dancis) (BCLO), 463
Dysfunction, bone marrow, and syndrome of pancreatic insufficiency (Shwachman et al.), 645
Dysmaturity (CPC), 940
Dysostosis, mandibulofacial, familial study of five generations (Rovin et al.), 215

E

Edema, familial periodic, hereditary angioneurotic, massive laryngeal, and pulmonary, severe (CPC), 625
Educational system, small college's place in (Editorial), 470
Electrocardiogram, unipolar, normal and abnormal in infants and children (Wasserburger et al.), 467 (B. rev.)
Electroencephalogram in rheumatic fever (Diamond and Tentler), 117 (Abst.)
in visually handicapped children (Akiyama, Parmelee, and Flescher), 233
Electrolytes, blood, and cerebrospinal fluid in 62 mentally defective infants and children (Schain), 422
Electroretinogram, human, in first day of life (Shipley and Anton), 733
Emergency resuscitation box (Allan and Kay) (BCLO), 298
Emphysema, mediastinal and subcutaneous, complicating asthma in children, treatment of (Thaler et al.), 75
Encephalopathy following influenza immunization (Woods and Ellison), 745
Endogenous urinary excretion of nitrogen by 4-month-old infants (Fomon et al.), 111 (Abst.)
Enterohepatic shunt as determinant of serum bilirubin concentrations in normal human newborns, possible role of (Ulstrom and Eisenklam), 115 (Abst.)
shunting of bilirubin in newborn infant (Ulstrom and Eisenklam), 27
Enteroviruses in human milk, antibodies against (Michaels), 117 (Abst.)
Enzymes, brain and liver, with plasma phenylalanine in rat phenylketonuria, correlates of (Waisman and Boggs), 105 (Abst.)
hepatic, insulin and induced synthesis of (Steiner), 106 (Abst.)
serum profile, and startle response in early detection of Tay-Sachs' disease (Schneck, Maisel, and Volk), 749
in sweat gland, quantitative microdetermination of (Gibbs and Reimer), 540
Emphysema, terminal interstitial, of lung (CPC), 940
Equilibration, bilirubin, during exchange transfusion in hemolytic disease of newborn (Sproul and Smith), 12
Errors, inborn, of metabolism, evaluation of amino acid excretion pattern of mental retardates as screening technique for (Stambaugh and Davidson) (BCLO), 301
Erythroblastosis fetalis due to Rh incompatibility (CPC), 940
Erythrocytes in human neonates, immunologic tolerance of ABO incompatible (Cooper and Lusher), 931
Estrogen effect, decrease in, without urinary gonadotropin (Lemli, Aron, and Smith), 886
(Lemli, Aron, and Smith), 110 (Abst.)
Ethical, legal, and moral aspects of clinical medicine (Ladimer and Newman, editors), 791 (B. Rev.)
Exanthem associated with respiratory syncytial virus infection (Berkovich and Kibrick), 368
Exchange transfusion, death during (CPC), 940
in hemolytic disease of newborn, bilirubin equilibration during (Sproul and Smith), 12
Excretion, amino acid, pattern of mental retardates as screening technique for inborn errors of metabolism, evaluation of (Stambaugh and Davidson) (BCLO), 301
of chondroitin sulfate B in relatives of patient with Morquio-Ullrich's disease (Holman and Lalli), 108 (Abst.)
endogenous urinary, of nitrogen by 4-month-old infants, estimate of (Fomon et al.), 111 (Abst.)
nitrogen, by newborn infants during oxygen breathing (Nelson, Prod'hom, and Cherry), 299

Excretion—Cont'd
of oxalic acid following deoxypyridoxine and tryptophan administration in mongoloid and nonmongoloid subjects (McCoy, Anast, and Naylor), 208
in mongol and nonmongol following deoxypyridoxine and tryptophan (McCoy and Anast), 105 (Abst.)
Extrahepatic biliary atresia, familial (Krauss) (BCLO), 933

F

Fabry's disease (diffuse angiokeratosis) in children (Stiles and Opitz), 103 (Abst.)
Fat absorption which employs iodinated triglyeride, new test for (Neerhout et al.), 701
Fatal recurrence of acute thrombocytopenic purpura in 5-year-old Negro (Hyatt) (BCLO), 456
Feeding problems in infants and children, critical or sensitive period, with special reference to certain (Illingworth and Lister), 839
Ferritin-labeled antihuman fibrinogen antibody, ultrastructural study of platelet-fibrin interaction utilizing (White, Krivit, and Vernier), 107 (Abst.)
Fetal cord artery and vein, plasma insulin-like activity in (Klink et al.), 112 (Abst.)
lamb amniotic fluid: relationship of lipid composition to surface tension (Fujiwara, Adams, and Scudder), 824
Fetus, hydrocephalic, trisomy 18 in (El-Alfi, Biesele, and Smith), 67
Fever, rheumatic, electroencephalogram in (Diamond and Tentler), 117 (Abst.)
Fibrosis, cystic, botryomycosis, complication in (Katznelsen et al.), 525
dehydrogenases in patients with, and in control subjects, II (Gibbs and Reimer), 540
5 year clinical evaluation of therapeutic program for patients with (Doershuk et al.), 677
growth patterns in children with (Sproul and Huang), 664
of pancreas, patients with, and normal controls, immunologic and biochemical comparisons of urinary glycoproteins in (Talamo et al.), 480
pulmonary hypertension and cor pulmonale in (Goldring et al.), 501
specific isoantibodies in (Stein et al.), 495
submaxillary salivary enzymes as measure of glandular activity in (Chernick, Eichel, and Barbero), 694
therapeutic regimen for patients with (Matthews et al.), 558
use of N-acetylcysteine in treatment of (Reas), 542
Fibrin-platelet interaction utilizing ferritin-labeled antihuman fibrinogen antibody, ultrastructural study of (White, Krivit, and Vernier), 107 (Abst.)
Fibrinogen antibody, ultrastructural study of platelet-fibrin interaction utilizing ferritin-labeled antihuman (White, Krivit, and Vernier), 107 (Abst.)
Fish flour, fluoride in, and effect on teeth (Hadjimarkos) (BCLO), 782
Fluid, cerebrospinal, and blood electrolytes in 62 mentally defective infants and children (Schain), 422
Fluid, cerebrospinal, of child with bacterial meningitis and gingivostomatitis, isolation of Herpesvirus hominum from (Brunell and Dodd), 53
glutamic oxalacetic transaminase and lactic dehydrogenase activities in children with neurologic disorders (Lending, Slobody, and Mestern), 422
Flora, intestinal, of Puerto Rican children with gastroenteritis, multiplicity of infectious agents in (Guardiola-Rotger et al.) (Trop. ped.), 81
Flour, fish, fluoride in, and effect on teeth (Hadjimarkos) (BCLO), 782
Fluocinolone acetonide treatment of Leiner's disease (Middelkamp and Lane) (BCLO), 784
Fluoride in fish flour and effect on teeth (Hadjimarkos (BCLO), 782
Folic acid deficiency and hemolytic anemia in children (Shojania and Gross), 114 (Abst.)

G

Gangrene, acute, of scrotum in 8 year old (Werner and Falk) (BCLO), 133
Gastroenteritis, multiplicity of infectious agents in intestinal flora of Puerto Rican children with (Guardiola-Rotger et al.) (Trop. ped.), 81
Genetic evaluation of congenital heart disease (Nora et al.), 120 (Abst.)
Gestation, normal changes in mass and water content in fetal rhesus monkey and placenta throughout (Behrman et al.), 38
G/G translocation trisomy, probable (Townes and Ziegler), 400
Gingivostomatitis and bacterial meningitis, isolation of Herpesvirus hominum from cerebrospinal fluid of child with (Brunell and Dodd), 53
Gland, sweat, quantitative microdetermination of enzymes in (Gibbs and Reimer), 540
Glandular activity in cystic fibrosis, submaxillary salivary enzymes as measure of (Chernick, Eichel, and Barbero), 694
Glucose and alkali infusion on permanent brain damage in rhesus monkeys asphyxiated at birth (Dawes, Hibbard, and Windle), 801
Glucose-6-phosphate dehydrogenase deficiency and neonatal jaundice in South African Bantu infants (Levin, Charlton, and Freiman) (Trop. ped.), 757

Glutamic oxalacetic transaminase and lactic dehydrogenase activities in children with neurologic disorders (Lending, Slobody, and Mestern), 415
Glycogen storage disease of heart in newborn infant (Rosenstein) (BCLO), 126
Glycogenosis, generalized (Kahana et al.), 243
Glycoproteins, urinary, in patients with cystic fibrosis of pancreas and normal controls, immunologic and biochemical comparison of (Talamo et al.), 480
Gonadotropin reduction, urinary, decrease in estrogen effect without (Lemli, Aron, and Smith), 886
(Lemli, Aron, and Smith), 110 (Abst.)
Growth and caloric intake, influence of tonsillectomy on (Roche), 360
patterns in children with cystic fibrosis (Sproul and Huang), 664

H

Hand, varus deformity of, absent radius, and rudimentary thumb, trisomy 18 syndrome with (Voorhess, Aspillaga, and Gardner) (BCLO), 130
Handicapped, visually, children, electroencephalogram in (Akiyama, Parmelee, and Flescher), 233
Hearing following acute otitis media, pattern of (Olmsted et al.), 252
Heart disease, congenital, genetic evaluation of (Nora et al.), 120 (Abst.)
in neonatal period (Mehrizi, Hirsch, and Taussig), 721
in Laurence-Moon-Biedl-Bardet syndrome (McLoughlin, Krovetz, and Schiebler), 388
glycogen storage disease of, in newborn infant (Rosenstein) (BCLO), 126
surgery, open, assay for heparin-like activity in blood of patients undergoing (Reiner), 121 (Abst.)
Hematologic and cytogenetic serial studies on mongol with trisomy-21 and acute congenital leukemia (Honda et al.), 878
Hemolytic anemia, congenital nonspherocytic (Zipursky, Rowland, and Israels), 104 (Abst.)
and folic acid deficiency in children (Shojania and Gross), 114 (Abst.)
disease of newborn, bilirubin equilibration during exchange transfusion in (Sproul and Smith), 12
streptococcal, beta, pharyngitis (history) (CPC), 625
Heparin-like activity in blood of patients undergoing open heart surgery, assay for (Reiner), 121 (Abst.)
Hepatic enzymes, insulin and induced synthesis of (Steiner), 106 (Abst.)
Hereditary angioneurotic edema (familial periodic edema) (CPC), 625
dentinogenesis imperfecta (Wallace) (BCLO), 128
Hereditary—Cont'd
methemoglobinemia due to diaphorase deficiency in Navajo Indians (Balsamo, Hardy, and Scott) (BCLO), 926
Herpesvirus hominum from the cerebrospinal fluid of child with bacterial meningitis and gingivostomatitis, isolation of (Brunell and Dodd), 53
Histochemical studies in childhood malignancies and periodic acid-Schiff reaction (Sinks and Newton), 116 (Abst.)
Holoprosencephaly (Bishop et al.), 406
Homotransplantation, kidney, in children, thoughts about (Editorial), 797
Host factors in ataxia telangiectasia (Blattner) (Comments), 786
Hydrocephalic fetus, trisomy 18 in (El-Alfi, Biesele, and Smith), 67
Hydroxymethylaminomethane (Tris) of rhesus monkeys asphyxiated at birth, resuscitation by positive pressure ventilation and (Adamsons et al.), 807
Hyperbilirubinemia in premature infants (Koch), 1
Hyperkeratosis, syndrome of palmar-plantar, and premature periodontal destruction of teeth (Gorlin, Sedano, and Anderson), 893
Hyperplasia, congenital adrenal (CAH) in siblings, virilizing and hypospadic salt losing forms of (Kenny, Klein, and Richards), 110 (Abst.)
lymphoid, with lymphoid nodules in bone marrow (CPC), 306
Hypertension, pulmonary, and cor pulmonale in cystic fibrosis of pancreas (Goldring et al.), 501
Hyperthyroidism in patient with pituitary adenoma (Nyhan and Green), 583
Hypoglycemia and smaller of twins (Reisner et al.), 107 (Abst.)
Hypospadic salt losing and virilizing forms of congenital adrenal hyperplasia (CAH) in siblings (Kenny, Klein, and Richards) (BCLO), 110 (Abst.)
Hypothesis, Lyon (Davidson) (Med. prog.), 765
Hypothyroidism, congenital, temperature effects of therapy in (Lipton et al.), 740
Hypoxia and status of ductus arteriosus on acid-base balance in newborn infants, effect of (Moss et al.), 819

I

Idaho and Utah, sarcoidosis among children in (Beier and Lahey), 350
Idiopathic isosexual precocity, action of Depo-Provera in 3 girls with (Lemli, Aron, and Smith), 886
(Lemli, Aron, and Smith), 110 (Abst.)
lactic acidosis in infancy (Howarth and Israels), 103 (Abst.)
mental retardation, congenital anomalies associated with (Smith and Bostian), 189
Illness, behavioral, in boys 9 to 14 years of age, practical, quantitative method for recognizing (Kearsley, Snider, and Eaton), 256

Immunologic and biochemical comparison of urinary glycoproteins in patients with cystic fibrosis of pancreas and normal controls (Talamo et al.), 480
tolerance of ABO incompatible erythrocytes in human neonates (Cooper and Lusher), 831
Inborn errors of metabolism, evaluation of amino acid excretion pattern of mental retardates as screening technique for (Stambaugh and Davidson) (BCLO), 301
Indians, Navajo, hereditary methemoglobinemia due to diaphorase deficiency in (Balsamo, Hardy, and Scott) (BCLO), 928
Infancy, asymptomatic bacteriuria and pyuria in (Randolph and Greenfield), 57
brain tumors in early (Raskind and Beigel), 727
and childhood tumors of (Michael), 790 (B. rev.)
early, superficial connective tissue tumors in (Goslee et al.), 377
Infant behavior, determinants of (Foss, editor), 634 (B. rev.)
sleep patterns: from birth to 16 weeks of age (Parmelee, Wenner, and Schulz), 576
Infantile pyloric stenosis, incidence of (Gharib) (BCLO), 622
Infarction, acute, of right upper lobe of lung, massive pulmonary thromboembolism with (CPC), 310
Infectious agents in intestinal flora of Puerto Rican children with gastroenteritis, multiplicity of (Guardiola-Rotger et al.) (Trop. ped.), 81
Infection, exanthem associated with respiratory syncytial virus (Berkovich and Kibrick), 368
generalized BCG (Blattner), 306
massive, disseminated, agranulocytic (Staphylococcus albus) (CPC), 141
with type 3 attenuated poliovirus, response of premature infants to (Pagano, Plotkin, and Cornely), 165
virus, in sudden unexpected death, possible role of (Blattner) (Comments), 631
Influenza immunization, encephalopathy following (Woods and Ellison), 745
Infusion, alkali and glucose, on permanent brain damage in rhesus monkeys asphyxiated at birth, effect of (Dawes, Hibbard and Windle), 801
Ingestion of toxic overdose of chlorprothixene by 3 year old (Plumb and Joseph) (BCLO), 458
Inherited cytogenetic mosaicism in man (Borges, Wald, and Hoffman), 103 (Abst.)
Insufficiency, pancreatic, syndrome of, and bone marrow dysfunction (Shwachman et al.), 645
Insulin and induced synthesis of hepatic enzymes (Steiner), 106 (Abst.)
Insulin-like, plasma, activity in fetal cord artery and vein (Klink et al.), 112 (Abst.)
Intake, caloric and growth, influence of tonsillectomy on (Roche), 360
and changing body composition, response of neonatal renal function to (Oh, Baens, and Metcoff), 115 (Abst.)
Interstitial emphysema of lung, terminal (CPC), 940
Intestinal flora of Puerto Rican children with gastroenteritis, multiplicity of infectious agents in (Guardiola-Rotger et al.) (Trop. ped.), 81
Intrathoracic stomach in childhood (DeMuth and Ames) (BCLO), 619
Iodinated triglyceride, new test for fat absorption which employs (Neerhout et al.), 701
5 Iodo 2'-deoxyuridine used in nucleic acid studies for rubella virus (Cusumano et al.) (BCLO), 138
Irradiation, preconceptional parental, as possible etiologic factor in trisomy 17-18 (Townes, DeHart, and Ziegler), 868
Isoantibodies, specific, in cystic fibrosis (Stein et al.), 495
Isosexual precocity, idiopathic, action of Depo-Provera in 3 girls with (Lemli, Aron, and Smith), 886
(Lemli, Aron, and Smith) 110 (Abst.)

J

Jaundice, neonatal, and glucose-6-phosphate dehydrogenase deficiency in South African Bantu infants (Levin, Charlton, and Freiman) (Trop. ped.), 757

K

Kidney homotransplantation in children, thoughts about (Editorial), 797
Klinefelter's syndrome with XXYY sex chromosome complex (Robinson et al.), 226

L

Lactic acidosis, idiopathic, in infancy (Howarth and Israels), 103 (Abst.)
dehydrogenase and cerebrospinal fluid glutamic oxalacetic transaminase activities in children with neurologic disorders (Lending, Slobody, and Mestern), 415
Lag, developmental, in certain blind children, appraisal of (Elonen and Zwarensteyn) (Med. prog.), 599
Laryngeal edema, massive (CPC), 625
Laurence-Moon-Biedl-Bardet syndrome, heart disease in (McLoughlin, Krovetz, and Schiebler), 388
Legal, ethical, and moral aspects of clinical medicine (Ladimer, and Newman, editors), 791 (B. rev.)
Leiner's disease, fluocinolone acetonide treatment of (Middelkamp and Lane) (BCLO), 784
Letters to the Editor, 154, 319, 635, 792, 954
Leukemia, acute congenital, and trisomy-21, serial cytogenetic and hematologic studies on mongol with (Honda et al.), 878

Leukemia—Cont'd
transient congenital, in 7 infants with mongolism (Engel et al.) (BCLO), 303
Lip biting in infancy (Kravitz) (BCLO), 136
Lipid composition to surface tension in fetal lamb amniotic fluid, relationship of (Fujiwara, Adams, and Scudder), 824
serum, in patients with tuberous sclerosis, survey of (Carpenter, Carter, and Colombini) (BCLO), 778
and surface tension of extracts of normal and oxygen-treated guinea pig lungs (Fujiwara, Adams, and Seto), 45
Lithiasis, pancreatic, due to malnutrition and alcoholism in child (Schmidt et al.) (BCLO), 613
Liver and brain enzymes with plasma phenylalanine in rat phenylketonuria, correlates of (Waisman and Boggs), 105 (Abst.)
needle biopsy of, in infants and children, 176
Lung and disorders in newborn infant (Avery), 953 (B. rev.)
guinea pig, lipids and surface tension of extracts of normal and oxygen-treated (Fujiwara, Adams, and Seto), 45
terminal interstitial emphysema of (CPC), 940
Lymphoid hyperplasia with lymphoid nodules in bone marrow (CPC), 306
Lyon hypothesis (Davidson) (Med. prog.), 765

M

Malignant, transformation, in vitro, by polyoma virus (Kirsten), 109 (Abst.)
Malignancies, childhood, histochemical studies with periodic acid-Schiff reaction in (Sinks and Newton), 116 (Abst.)
Malformations (*See also* Anomalies)
congenital, and perinatal death in Uganda Africans (Dodge and McKinney), 267
(International Medical Congress, Ltd., Editors), 952 (B. rev.)
Malnutrition and alcoholism in child, pancreatic lithiasis due to (Schmidt et al.) (BCLO), 613
pathogenesis of purpura in child with severe (Dorantes et al.) (Trop. ped.), 438
Mandibulofacial dysostosis, familial study of five generations (Rovin et al.), 215
Marine antifouling paint, acute mercury poisoning in child following contact with (Schrager), 780
Marinesco-Sjögren syndrome (Norwood), 431
Marrow, bone, aplasia of, with stem cells (CPC), 141
dysfunction, and syndrome of pancreatic insufficiency (Shwachman et al.), 645
lymphoid hyperplasia with lymphoid nodules in (CPC), 306
Mass and water content in fetal rhesus monkey and placenta throughout gestation, normal changes in (Behrman et al.), 38
Mediastinal and subcutaneous emphysema complicating asthma in children, treatment of (Thaler et al.), 75
Medicine, clinical investigation in (legal, ethical, and moral aspects) (Ladimer and Newman, editors), 791 (B. rev.)
Mellitus, diabetes, syndrome in newborn infant (Burland) (BCLO), 122
Membrane, tympanic, left chronic otitis media with perforation of (CPC), 306
Meningitis, bacterial, and gingivostomatitis, isolation of Herpesvirus hominum from cerebrospinal fluid of child with (Brunell and Dodd), 53
Mentally defective infants and children, cerebrospinal fluid and blood electrolytes in 62 (Schain), 422
Mental retardation, idiopathic, congenital anomalies associated with (Smith and Bostian), 189
retardates as screening technique for inborn errors, evaluation of amino acid excretion pattern of (Stambaugh and Davidson) (BCLO), 301
Mercury poisoning, acute, in child following contact with marine antifouling paint (Schrager) (BCLO), 780
Metabolic alkalosis with diarrhea and chloride-free urine (Owen), 849
Metabolism, evaluation of amino acid excretion pattern of mental retardates as screening technique for inborn errors (Stambaugh and Davidson) (BCLO), 301
Microdetermination, quantitative, of enzymes in sweat gland (Gibbs and Reimer), 540
Midwest Society for Pediatric Research, Chicago, Ill., Nov. 2 and 3, 1963, 102
Milk, human, antibodies against enteroviruses in (Michaels), 117 (Abst.)
Mongol and nonmongol following deoxypyridoxine and tryptophan, excretion of oxalic acid in (McCoy and Anast), 105 (Abst.)
with trisomy-21 and acute congenital leukemia, serial cytogenetic and hematologic studies in (Honda et al.), 878
Mongolism (Down's syndrome) with atypical clinical and cytogenetic features (Sergovich et al.), 197
transient congenital leukemia in 7 infants with (Engel et al.) (BCLO), 303
Mongoloid and nonmongoloid subjects, excretion of oxalic acid following deoxypyridoxine and tryptophan administration in (McCoy, Anast, and Naylor), 208
Morquio-Ullrich's disease (Holman and Lalli), 108 (Abst.)
Moral, legal, and ethical aspects of clinical medicine (Ladimer and Newman, editors), 791 (B. rev.)
Mosaicism, inherited cytogenetic, in man (Borges, Wald, and Hoffman), 103 (Abst.)
XO/XX sex chromosome and trisomy 21 (Root et al.), 937
Mother and doctor communications, effectiveness of (Ambuel et al.), 113 (Abst.)
Mycobacteria, atypical, as probable cause of chronic bone disease (Krieger, Hahne, and Whitten), 340

N

N-acetylcysteine in treatment of cystic fibrosis, use of (Reas), 522
Navajo Indians, hereditary methemoglobinemia due to diaphorase deficiency in (Balsamo, Hardy, and Scott) (BCLO), 928
Needle biopsy of liver in infants and children (Porter, Riley, and Graham), 176
Negro, American, phenylketonuria in (Katz and Menkes), 71
Neonatal bilirubin levels after use of phenothiazine derivatives for obstetrical analgesia (DeLamerens, Tuttle, and Aballi), 923
jaundice and glucose-6-phosphate dehydrogenase deficiency in South African Bantu infants (Levin, Charlton, and Freiman) (Trop. ped.), 757
period, congenital heart disease in (Mehrizi, Hirsch, and Taussig), 721
renal function, propriety of response to changing body composition and intake of (Oh, Baens, and Metcoff), 115 (Abst.)
Neonates, human, immunologic tolerance of ABO incompatible erythrocytes in (Cooper and Lusher), 831
Neurologic disorders, cerebrospinal fluid glutamic oxalacetic transaminase and lactic dehydrogenase activities in children with (Lending, Slobody, and Mestern), 415
involvement in childhood, pernicious anemia with (Pearson, Vinson, and Smith), 334
Neurometabolic disorders in childhood (Holt and Milner, editors), 790 (B. rev.)
Neurotoxicity with nitrofurantoin (Heffelfinger and Allen) (BCLO), 611
Neutralizing antibodies to R. S. Virus, significance and distribution of (Beem), 108 (Abst.)
Newborn(s), bilirubin equilibration during exchange transfusion in hemolytic disease of (Sproul and Smith), 12
female, buccal smears in (Frasier, Crudo, and Farrell), 222
infant, diabetes mellitus syndrome in (Burland) (BCLO), 122
during oxygen breathing, nitrogen excretion by (Nelson, Prod'hom, and Cherry) (BCLO), 299
effect of hypoxia and status of ductus arteriosus on acid-base balance in (Moss et al.), 819
enterohepatic shunting of bilirubin in (Ulstrom and Eisenklam), 27
glycogen storage disease of heart in (Rosenstein) (BCLO), 126
human, from birth to 3 days of age, pulmonary arterial pressure changes in (Emmanouilides et al.), 327
lung and its disorders in (Avery), 953
normal human, possible role of enterohepatic shunt as determinations of serum bilirubin concentrations in (Ulstrom and Eisenklam), 115 (Abst.)
News and notes, 159, 325, 469, 638, 796, 956
Nils Rosén von Rosenstein—father of pediatrics in Sweden (Editorial), 160
Nitrofurantoin, neurotoxicity with (Heffelfinger and Allen) (BCLO), 611
Nitrogen, estimate of endogenous urinary excretion of, by 4-month-old infants (Fomon et al.), 111 (Abst.)
excretion by newborn infants and during oxygen breathing (Nelson, Prod'hom, and Cherry) (BCLO), 299
Nodules, lymphoid, in bone marrow (CPC), 306
Nonspherocytic hemolytic anemia, congenital (Zipursky, Rowland, and Israels), 104 (Abst.)
Nucleic acid studies for rubella virus using 5 iodo 2′-deoxyuridine (Cusamano et al.), (BCLO), 138

O

Obstetrical analgesia, neonatal bilirubin levels after use of phenothiazine derivatives for (deLamerens, Tuttle, and Aballi) (BCLO), 923
Open heart surgery, assay for heparin-like activity in blood of patients undergoing (Reiner), 121 (Abst.)
Ophthalmology, pediatric, diagnostic procedures in (Apt, editor), 953 (B. rev.)
Otitis media, acute, pattern of hearing following (Olmsted et al.), 252
left chronic, with perforation of tympanic membrane (CPC), 306
Overdose, toxic, of chlorprothixene purpura by 3 year old (Plumb and Joseph), 458
Oxalic acid following deoxypyridoxine and tryptophan administration in mongoloid and nonmongoloid subjects (McCoy, Anast, and Naylor), 208
in mongol and nonmongoloid following deoxypyridoxine and tryptophan, excretion of (McCoy and Anast), 105 (Abst.)
Oxygen breathing nitrogen excretion by newborn infants during (Nelson, Prod'hom, and Cherry) (BCLO), 299
Oxygen-treated and normal guinea pig lungs, lipids and surface tension of extracts of (Fujiwara, Adams, and Seto), 45

P

Paint, marine, antifouling, acute mercury poisoning in child following contact with (Schrager), 780
Palmar-plantar hyperkeratosis, syndrome of, and premature periodontal destruction of teeth (Gorlin, Sedano, and Anderson), 893
Palsy, cerebral, easily made chair for child with (Jenkins) (BCLO), 776
etiologic and diagnostic study of (Malamud et al.) (Med. prog.), 270
Pancreas, cystic fibrosis of, patients with, and normal controls, immunologic and biochemical comparison of urinary glycoproteins in (Talamo et al.), 480
pulmonary hypertension and cor pulmonale in (Goldring et al.), 501

Pancreatic carcinoma in childhood (Moynan, Neerhout, and Johnson), 711
insufficiency, syndrome of, and bone marrow dysfunction (Shwachman et al.), 645
lithiasis due to malnutrition and alcoholism in child (Schmidt et al.) (BCLO), 613
Parental irradiation, preconceptional, as possible etiologic factor in trisomy 17-18 (Townes, DeHart, and Ziegler), 868
Pathogenesis of purpura in child with severe malnutrition (Dorantes et al.) (Trop. ped.), 438
Pediatric age group, incidence of peptic ulcer as determined by radiologic examinations in (Singleton and Faykus), 858
ophthalmology, diagnostic procedures in (Apt, editor), 953 (B. rev.)
training, child psychiatrist views (Editorial), 472
Pediatrician's office, screening for color vision in (Rosner) (BCLO), 454
Pediatrics, advances in, Vol. XIII (Levine, editor), 790 (B. rev.)
father of (Nils Rosén von Rosenstein) in Sweden (Editorial), 160
Peptic ulcer as determined by radiologic examinations in pediatric age group, incidence of (Singleton and Faykus), 858
Perinatal death in Uganda Africans, special reference to congenital malformations, causes of (Dodge and McKinney) (Trop. ped.), 267
Periodic acid–Schiff reaction, histochemical studies with, in childhood malignancies (Sinks and Newton), 116 (Abst.)
Periodontal, premature, destruction of teeth, syndrome of palmar-plantar hyperkeratosis and (Gorlin, Sedano, and Anderson), 893
Pernicious anemia with neurologic involvement in childhood (Pearson, Vinson, and Smith), 334
Pharyngitis, beta hemolytic streptococcal (history), 625
Phenothiazine derivatives for obstetrical analgesia, neonatal bilirubin levels after use of (DeLamerens, Tuttle, and Aballi) (BCLO), 923
Phenylalanine, plasma in rat phenylketonuria, correlates of brain and liver enzymes with (Waisman and Boggs), 105 (Abst.)
Phenylketonuria occurring in American Negro (Katz and Menkes), 71
rat: correlates of brain and liver enzymes with plasma phenylalanine (Waisman and Boggs), 105 (Abst.)
Pheochromocytoma, familial, presenting as familial dysautonomia (Smith and Dancis) (BCLO), 463
Pituitary adenoma, hyperthyroidism in patient with (Nyhan and Green), 583
Placenta throughout gestation, normal changes in mass and water content in fetal rhesus monkey and (Behrman et al.), 38
Plantar-palmar hyperkeratosis and premature periodontal destruction of teeth, syndrome of (Gorlin, Sedano, and Anderson), 893
Plasma insulin-like activity in fetal cord artery and vein (Klink et al.), 112 (Abst.)
phenylalanine in rat phenylketonuria, correlates of brain and liver enzymes with (Waisman and Boggs), 105 (Abst.)
Platelet-fibrin interaction utilizing ferritin-labeled antihuman fibrinogen antibody, ultrastructural study of (White, Krivit, and Vernier), 107 (Abst.)
Pleuropneumonia-like organisms (Blattner) (Comments), 949
Poisoning, acute mercury, in child following contact with marine antifouling paint (Schrager) (BCLO), 780
chronic, thallium: rapid diagnosis and treatment (Taber) (BCLO), 461
Poliovirus, response of premature infants to infection with type 3 attenuated (Pagano, Plotkin, and Cornely), 165
Polyoma virus, in vitro malignant transformation by (Kirsten), 109 (Abst.)
Precocity, idiopathic isosexual, action of Depo-Provera in 3 girls with (Lemli, Aron, and Smith), 886
(Lemli, Aron, and Smith), 110 (Abst.)
Premature infants, hyperbilirubinemia in (Koch), 1
to infection with type 3 attenuated poliovirus, response of (Pagano, Plotkin, and Cornely), 165
Urinary protein excretion in (Smith and Scrivens) (BCLO), 931
periodontal destruction of teeth, syndrome of palmar-plantar hyperkeratosis and (Gorlin, Sedano, and Anderson), 893
Prematurity, epidemiology of (Baird) (Med. prog.), 907
Pressure, pulmonary arterial, changes in human newborn infants from birth to 3 days of age (Emmanouilides et al.), 327
ventilation, positive, and Tris-hydroxymethyl-aminomethane of rhesus monkeys asphyxiated at birth, resuscitation by (Adamsons et al.), 807
Procedures, diagnostic, in pediatric ophthalmology (Apt, editor), 953 (B. rev.)
Protein, urinary, excretion in premature infant (Smith and Scrivens) (BCLO), 931
Protein-bound carbohydrates and amino acids in tuberous sclerosis, survey of (Carpenter et al.) (BCLO), 124
Psychiatrist, child, views pediatric training (Editorial), 472
Puerto Rican children with gastroenteritis, multiplicity of infectious agents in intestinal flora of (Guardiola-Rotger et al.) (Trop. ped.), 81
Pulmonary arterial pressure changes in human newborn infants from birth to 3 days of age (Emmanouilides et al.), 327

Pulmonary—Cont'd
artery stenosis, main, artificially produced, in dog, the course of (Tsifutis et al.), 118 (Abst.)
edema, severe (CPC), 625
hypertension and cor pulmonale in cystic fibrosis of pancreas (Goldring et al.), 501
thromboembolism, massive, with acute infarction of right upper lobe of lung, originating in cerebral venous sinuses (CPC), 306
Purpura, acute thrombocytopenic, in 8-year-old Negro, fatal recurrence of (Hyatt) (BCLO), 456
in child with severe malnutrition, pathogenesis of (Dorantes et al.), 438
Pyloric stenosis, infantile, incidence of (Gharib) (BCLO), 622
Pyuria and bacteriuria, asymptomatic, in infancy (Randolph and Greenfield), 57

R

Radioisotope renography in normal children (Wenzl et al.), 112 (Abst.)
Radiologic examinations in pediatric age group, incidence of peptic ulcer as determined by (Singleton and Faykus), 858
Radius, absence of, varus deformity of hand, and rudimentary thumb in trisomy 18 syndrome (Voorhess, Aspillaga, and Gardner) (BCLO), 130
Regimen, therapeutic, for patients with cystic fibrosis (Matthews et al.), 558
Renal function, neonatal, response to changing body composition and intake of (Oh, Baens, and Metcoff), 115 (Abst.)
Renography, radioisotope, in normal children (Wenzl et al.), 112 (Abst.)
Research, review of child development (Hoffman and Hoffman, editors), 790 (B. rev.)
Respiratory alarm for infants (Lipton et al.) (BCLO), 294
syncytial virus infection, exanthem associated with (Berkovich and Kibrick), 368
Resuscitation box, emergency (Allan and Kay), 297
by positive pressure ventilation and Tris-hydroxymethylaminomethane of rhesus monkeys asphyxiated at birth (Adamsons et al.), 807
Retardates, mental, evaluation of amino acid excretion pattern of, as screening technique for inborn errors of metabolism (Stambaugh and Davidson) (BCLO), 301
Retardation, idiopathic mental, congenital anomalies associated with (Smith and Bostian), 189
Rh incompatibility, erythroblastosis fetalis due to (CPC), 940
Rheumatic fever, electroencephalogram in (Diamond and Tentler), 117 (Abst.)
von Rosenstein, Nils Rosén—father of pediatrics in Sweden (Editorial), 160
R. S. virus, significance and distribution of neutralizing antibodies to (Beem), 108 (Abst.)
Rubella virus: nucleic acid studies using 5 iodo 2′-deoxyuridine (Cusamano et al.) (BCLO), 138

S

Salivary enzymes, submaxillary, as measure of glandular activity in cystic fibrosis (Chernick, Eichel, and Barbero), 694
Salt, losing, hypospadic, and virilizing forms of congenital adrenal hyperplasia (CAH) in siblings (Kenny, Klein, and Richards), 110 (Abst.)
Sarcoidosis among children in Utah and Idaho (Beier and Lahey), 350
Schedule of meetings, 158, 323, 468, 795, 955
Sclerosis, tuberous, biochemical studies of (Carpenter et al.) (BCLO), 124
(Carpenter, Carter, and Colombini) (BCLO), 778
Screening technique for inborn errors, evaluation of amino acids excretion pattern of mental retardates as (Stambaugh and Davidson) (BCLO), 301
Scrotum, acute gangrene of, in 8 year old (Werner and Falk) (BCLO), 133
Septal defects, ventricular, in infants, surgical closure of (Sigmann, Stern, and Sloan), 119 (Abst.)
Serum bilirubin concentrations in normal human newborns, role of enterohepatic shunt as determinant of (Ulstrom and Eisenklam), 115 (Abst.)
values, use of oral activated charcoal to reduce normal (Ulstrom and Eisenklam), 27
enzyme profile and startle response in early detection of Tay-Sachs' disease (Schneck, Maisel, and Volk), 749
lipids, survey of, in patients with tuberous sclerosis (Carpenter, Carter, and Colombini) (BCLO), 778
Sex chromosome mosaicism, XO/XX and trisomy 21 (Root et al.) (BCLO), 937
XXYY, complex, Klinefelter's syndrome with (Robinson et al.), 226
Shunt, enterohepatic, as determinant of serum bilirubin concentrations in normal human newborns, possible role of (Ulstrom and Eisenklam), 115 (Abst.)
Shunting, enterohepatic, of bilirubin in newborn infant (Ulstrom and Eisenklam), 27
Siblings, virilizing and hypospadic salt losing forms of congenital adrenal hyperplasia (CAH) in (Kenny, Klein, and Richards), 110 (Abst.)
Sickel cell trait (CPC), 306
Sinus (es), cerebral, organized thrombus of right lateral (CPC), 306
venous, probable source of massive pulmonary thromboembolism with acute infarction of right upper lobe of lung (CPC), 306

Sinus(es)—Cont'd
coronary, simulating tricuspid atresia or stenosis, angiocardiographic feature of total anomalous venous return into (Mehrizi, Dekker, and Ottesen) (BCLO), 615
Sjögren syndrome (*See also* Marinesco-Sjögren syndrome)
Sleep patterns, infant, from birth to 16 weeks of age (Parmelee, Wenner, and Schulz), 576
Smears, buccal, in newborn female (Frasier, Crudo, and Farrell, 222
South African Bantu infants, glucose-6-phosphate dehydrogenase deficiency and neonatal jaundice in (Levin, Charlton, and Freiman), 757
Staphylococcus albus, massive disseminated agranulocytic infection (CPC), 141
Startle response and serum enzyme profile in early detection of Tay-Sachs' disease (Schneck, Maisel, and Volk), 749
Steatorrhea, disaccharidase deficiencies with (Lifschitz and Holman), 102 (Abst.)
Stenosis, infantile pyloric, incidence of (Gharib) (BCLO), 622
main pulmonary artery, in dog, course of artificially produced (Tsifutis et al.), 118 (Abst.)
supravalvar aortic (Petry et al.), 120 (Abst.)
tricuspid atresia, angiocardiographic feature of total anomalous venous return into coronary sinus simulating (Mehrizi, Dekker, and Ottesen) (BCLO), 615
Stomach, intrathoracic, in childhood (DeMuth and Ames) (BCLO), 619
Storage, glycogen, disease of heart in newborn infant (Rosenstein) (BCLO), 126
Streptococcal, beta hemolytic, pharyngitis (history), 625
Subcutaneous and mediastinal emphysema complicating asthma in children, treatment of (Thaler et al.), 75
Submaxillary salivary enzymes as measure of glandular activity in cystic fibrosis (Chernick, Eichel, and Barbero), 694
Sulfate B, chondroitin, excretion in relatives of patient with Morquio-Ullrich's disease (Holman, and Lalli), 108 (Abst.)
Surface tension and lipids of extracts of normal and oxygen-treated guinea pig lungs (Fujiwara, Adams, and Seto), 45
relationship of lipid composition to, in fetal lamb amniotic fluid (Fujiwara, Adams, and Scudder), 824
Surgery, open heart, assay for heparin-like activity in blood of patients undergoing (Reiner), 121 (Abst.)
Surgical closure of ventricular septal defects in infants (Sigmann, Stern, and Sloan), 119 (Abst.)
Supravalvar aortic stenosis (Petry et al.), 120 (Abst.)
Sweat gland, quantitative microdetermination of enzymes in (Gibbs and Reimer), 540
Sweden, father of pediatrics (Nils Rósen von Rosenstein) (Editorial), 160
Syncytial virus infection, exanthem associated with respiratory (Berkovich and Kibrick), 368
Syndrome, diabetes mellitus, in newborn infant (Burland) (BCLO), 122
Down's (mongolism), with atypical clinical and cytogenetic features (Sergovich et al.), 197
Klinefelter's with XXYY sex chromosome complex (Robinson et al.), 226
Laurence-Moon-Biedl-Bardet, heart disease in (McLoughlin, Krovetz, and Scheibler), 388
Marinesco-Sjögren (Norwood), 431
of palmar-plantar hyperkeratosis and premature periodontal destruction of teeth (Gorlin, Sedano, and Anderson), 893
of pancreatic insufficiency and bone marrow dysfunction (Shwachman et al.), 645
trisomy 18, with absent radius, varus deformity of hand, and rudimentary thumb (Voorhess, Aspillaga, and Gardner) (BCLO), 130
whooping cough (Blattner) (Comments), 150
Synthesis, induced, and insulin of hepatic enzymes (Steiner), 106 (Abst.)

T

Tay-Sachs' disease, startle response and serum enzyme profile in early detection of (Schneck, Maisel, and Volk), 749
Teeth, effect of fluoride in fish flour on (Hadjimarkos) (BCLO), 782
syndrome of palmar-plantar hyperkeratosis and premature periodontal destruction of (Gorlin, Sedano, and Anderson), 893
Telangiectasia, ataxia, host factors in (Blattner) (Comments), 786
Temperature effects of therapy in congenital hypothyroidism (Lipton et al.), 740
Tension, surface, and lipids of extracts of normal and oxygen-treated guinea pig lungs (Fujiwara, Adams, and Seto), 45
relationship of lipid composition to, in fetal lamb amniotic fluid (Fujiwara, Adams, and Scudder), 824
Terminal interstitial emphysema of lung (CPC), 940
Test, new, for fat absorption which employs iodinated triglyceride (Neerhout et al.), 701
Tetanus—clinical manifestations in children (Athavale and Pai) (Trop. ped.), 590
Thallium poisoning, chronic: rapid diagnosis and treatment (Taber) (BCLO), 461
Therapeutic program for patients with cystic fibrosis, 5 year clinical evaluation of (Doershuk et al.), 677
Thrombocytopenic purpura, acute, in 8-year-old Negro, fatal recurrence to (Hyatt) (BCLO), 456
Thromboembolism, massive pulmonary, with acute infarction of right upper lobe of lung (CPC), 306

Thrombus, organized, of right lateral cerebral sinus (CPC), 306
Thumb, rudimentary, absence of radius, varus deformity of hand in trisomy 18 syndrome (Voorhess, Aspillaga, and Gardner) (BCLO), 130
Thymic lymphocytosis (CPC), 141
Tissue tumors, superficial connective, in early infancy (Goslee et al.), 377
Tolerance, immunologic, of ABO incompatible erythrocytes in human neonates (Cooper and Lusher), 831
Tonsillectomy on growth and caloric intake, influence of (Roche), 360
Toxic overdose of chlorprothixene by 3 year old, ingestion of (Plumb and Joseph) (BCLO), 458
Tracheostomy, problem of detubating infant with (Smythe) (Med. prog.), 446
Training, pediatric, child psychiatrist views (Editorial), 472
Transaminase, cerebrospinal fluid glutamic oxalacetic, and lactic dehydrogenase activities in children with neurologic disorders (Lending, Slobody, and Mestern), 415
Transformation, in vitro malignant, by polyoma virus (Kirsten), 109 (Abst.)
Transfusion, exchange, death during (CPC), 940
in hemolytic disease of newborn, bilirubin equilibration during (Sproul and Smith), 12
Translocation trisomy, probable G/G (Townes and Ziegler), 400
Tricuspid atresia or stenosis, angiocardiographic feature of total anomalous venous return into coronary sinus simulating (Mehrizi, Dekker, and Ottesen) (BCLO), 615
5'5'3' Trifluoroleucine, action of (Rennert and Anker), 106 (Abst.)
Triglyceride, iodinated, new test for absorption which employs (Neerhout et al.), 701
Tris-hydroxymethylaminomethane and positive pressure ventilation of rhesus monkeys asphyxiated at birth, resuscitation by (Adamsons et al.), 807
Trisomy, probable G/G translocation (Townes and Ziegler), 400
17-18—preconceptional parental irradiation as possible etiologic factor (Townes, DeHart, and Ziegler), 868
18 in hydrocephalic fetus (El-Alfi, Biesele, and Smith), 67
18, pathology of (Lewis) (Med. prog.), 92
18 syndrome with absent radius, varus deformity of hand, and rudimentary thumb (Voorhess, Aspillaga, and Gardner) (BCLO), 130
21 and acute congenital leukemia, serial cytogenetic and hematologic studies on mongol with (Honda et al.), 878
21 and XO/XX sex chromosome mosaicism (double aneuploidy) (Root et al.) (BCLO), 937
Tryptophan and deoxypyridoxine administration in mongoloid and nonmongoloid subjects, excretion of oxalic acid following (McCoy, Anast, and Naylor), 208
excretion of oxalic acid in mongol and nonmongol following (McCoy and Anast), 105 (Abst.)
Tuberous sclerosis, biochemical studies of (Carpenter et al.) (BCLO), 124
(Carpenter, Carter, and Colombini) (BCLO), 778
Tumors, bilateral Wilms', in children (Jagasia et al.), 371
brain, in early infancy—probably congenital in origin (Raskind and Beigel), 727
of infancy and childhood (Michael), 790 (B. rev.)
superficial connective tissue, in early infancy (Goslee et al.), 377
Twins, smaller of, and hypoglycemia (Reisner et al.), 107 (Abst.)
Tympanic membrane, left chronic otitis media with perforation of (CPC), 306

U

Uganda Africans, causes of perinatal death in (Dodge and McKinney) (Trop. ped.), 267
Ulcer, peptic, as determined by radiologic examinations in pediatric age group, incidence of (Singleton and Faykus), 858
Ultrastructural study of platelet-fibrin interactions utilizing ferritin-labeled antihuman fibrinogen antibody (White, Krivit, and Venier), 107 (Abst.)
Urban population, nonfatal burns of children in well-defined (Waller and Manheimer), 861
Urinary excretion, endogenous, of nitrogen by 4-month-old infants, estimate of (Fomon et al.), 111 (Abst.)
glycoproteins in patients with cystic fibrosis of pancreas and normal controls, immunologic and biochemical comparison of (Talamo et al.), 480
gonadotropin reduction, decrease in estrogen effect without (Lemli, Aron, and Smith), 886
(Lemli, Aron, and Smith), 110 (Abst.)
protein excretion in premature infant (Smith and Scrivens) (BCLO), 931
Urine, chloride-free, and diarrhea, metabolic alkalosis with (Owen), 849
Utah and Idaho, sarcoidosis among children in (Beier and Lahey), 350

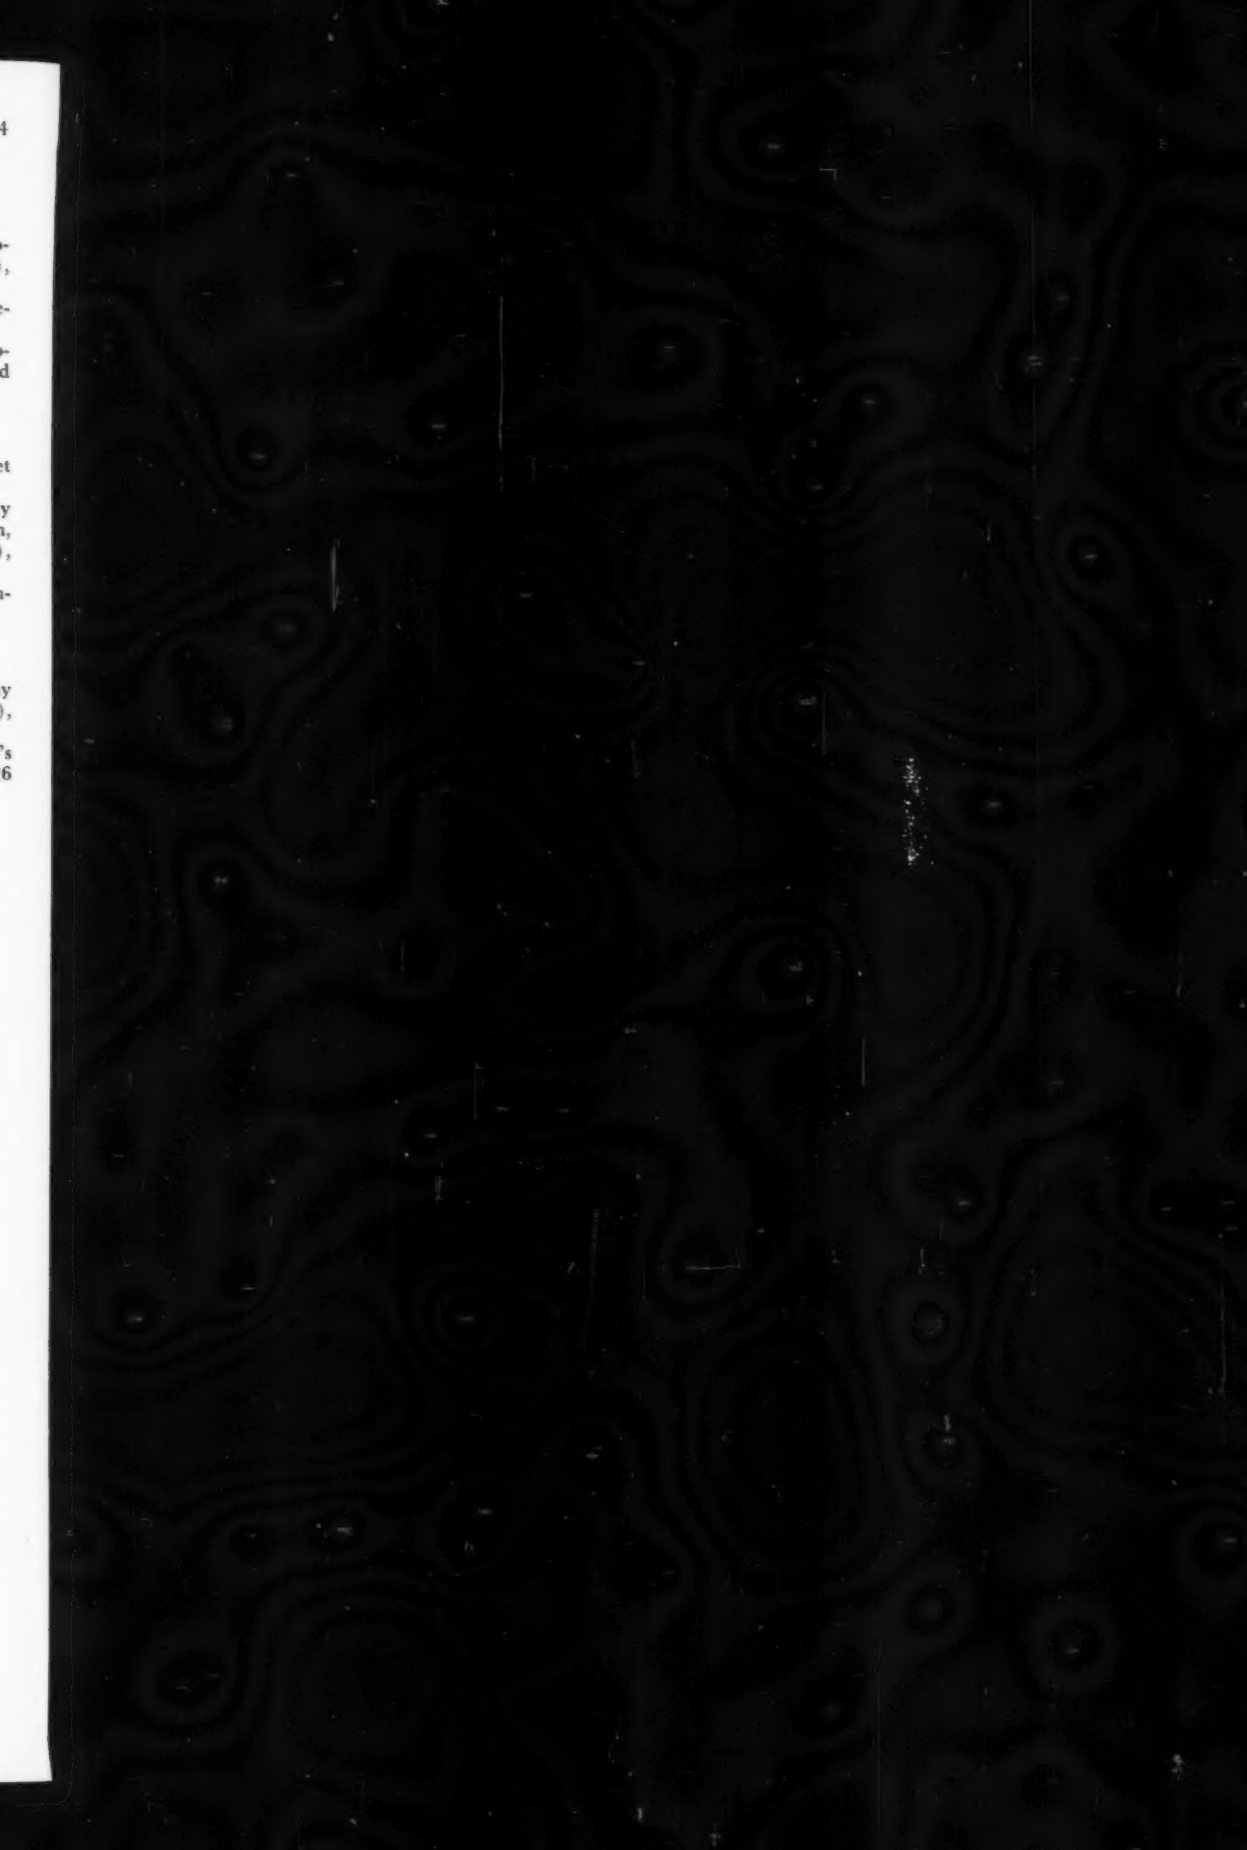
V

Varus deformity of hand, absent radius, and rudimentary thumb, trisomy 18 syndrome with (Voorhess, Aspillaga, and Gardner) (BCLO), 130
Vein and artery, fetal cord, plasma insulin-like activity in (Klink et al.), 112 (Abst.)

Venous return, total anomalous, into coronary sinus simulating tricuspid atresia or stenosis, angiocardiographic feature of (Mehrizi, Dekker, and Ottesen) (BCLO), 615
sinuses, cerebral, probable source of massive pulmonary thromboembolism with infarction of right upper lobe of lung (CPC), 306
Ventilation, positive pressure, and Tris-hydroxymethylaminomethane of rhesus monkeys asphyxiated at birth, resuscitation by (Adamsons et al.), 807
Ventricular septal defects in infants, surgical closure of (Sigmann, Stern, and Sloan), 119 (Abst.)
Virilizing and hypospadic salt losing forms of congenital adrenal hyperplasia (CAH) in siblings (Kenny, Klein, and Richards), 110 (Abst.)
Virus infection in sudden unexpected death, possible role of (Blattner) (Comments), 631
polyoma, in vitro malignant transformation by (Kirsten), 109 (Abst.)
R. S., significance and distribution of neutralizing antibodies to (Beem), 108 (Abst.)
Virus—Cont'd
respiratory syncytial, infection, exanthem associated with (Berkovich and Kibrick), 368
rubella: nucleic acid studies using 5 iodo 2'-deoxyuridine (Cusamano et al.), 138
Visually handicapped children, electroencephalogram in (Akiyama) Parmelee, and Flescher), 233

W

Wilms' tumors, bilateral, in children (Jagasia et al.), 371
Water and mass content in fetal rhesus monkey and placenta throughout gestation, normal changes in (Behrman et al.), 38
Whooping cough syndrome (Blattner) (Comments), 150

X


XO/XX sex chromosomes mosaicism and trisomy 21 (double aneuploidy) (Root et al.), 937
XXYY sex chromosome complex, Klinefelter's syndrome with (Robinson et al.), 226
